

# PALETTE *Perfection*

with **Cecilia Moyer**

See how this Iowa-based blogger and content creator transformed her living room using the ColorSnap® Color ID Trendsetter palette from Sherwin-Williams, and learn how you can make any space your own.

## Taking the Color ID Quiz

As a blogger and content creator, I'm passionate about sharing simple DIY projects. When I wanted to add some color to my living room, I turned to the Color ID quiz from Sherwin-Williams for inspiration. The design questions were fun and easy to answer! I was matched with the Trendsetter palette which is so accurate since I'm not afraid to push decorating boundaries.

*"I had fun incorporating the colors from the Trendsetter palette! It was easy because all 16 shades can be mixed and matched together."*

- Cecilia Moyer

## Designing My Living Room

I chose the shade Saguario for the dividing wall, and Pure White for the adjacent wall. Pure White really helps Saguario stand out, which is the look I wanted to achieve. The room came together beautifully!
